PARTNERS AND MANUFACTURERS

We are proud to support builders, contractors, and masons with the largest selection of brick in Georgia. To ensure the highest quality, we partner with top brick manufacturers who share our commitment to excellence and are passionate about design and innovation.

ABOUT US

North Georgia Brick is the largest distributor of brick and pavers in the U.S.

From modular to utility-size to thin brick to pavers, our selection of brick styles, colors, and textures are seemingly infinite. And the choices don't stop there. We also offer an extensive range of stone veneer that is molded from quarried stone and colored with the same natural iron oxide pigment found in real stone.

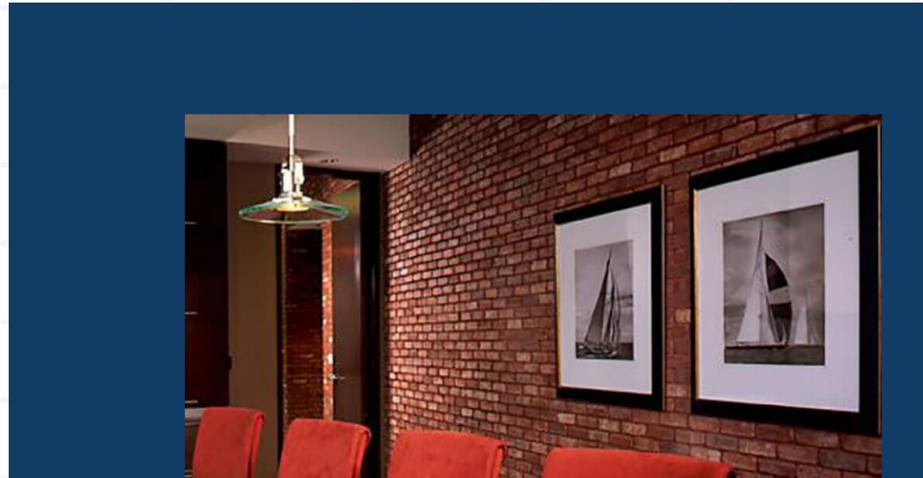

Together, these collections provide beautiful, long-lasting exterior, interior, and landscaping for commercial and multifamily developments.

SPECIALTY BRICK

Custom and Glass Styles

Commercial raw and textured brick is a popular material in modern architecture and interior design. It brings a rustic, industrial, and timeless appeal to various spaces.

Commercial glass bricks, also known as glass blocks, are a versatile architectural material used in various commercial applications. They provide a unique combination of aesthetics and functionality.
