## ABOUT US

*North Georgia Brick is the largest distributor of brick and pavers in the U.S.*

Driven by more than 40 years of brick supply leadership, North Georgia Brick proudly supports builders, contractors, and masons with the largest selection of brick in Georgia. As your trusted one-stop shop for all masonry needs, we partner with leading manufacturers who share our commitment to superior quality, innovative design, and long-lasting performance.

From modular and queen-size brick to thin brick and pavers, our expansive inventory delivers an unmatched variety of styles, colors, and textures, offering everything from timeless, traditional designs to bold, contemporary finishes. Beyond brick, we also offer a broad selection of premium stone veneer, molded from quarried stone and enhanced with natural iron oxide pigments to provide the authentic beauty and lasting durability of real stone.

Together, these collections provide beautiful, dependable solutions for residential, commercial, and multifamily projects, making them ideal for exterior façades, interior features, landscaping elements, and outdoor living spaces.

With the largest inventory in Georgia, the most diverse masonry selection in the state, cutting-edge delivery technology, and unmatched customer service, North Georgia Brick delivers exactly what you need to bring every project to life, on time, every time.

**BUILD WITH CONFIDENCE. BUILD WITH NORTH GEORGIA BRICK.**

# TURNKEY MASONRY SERVICES

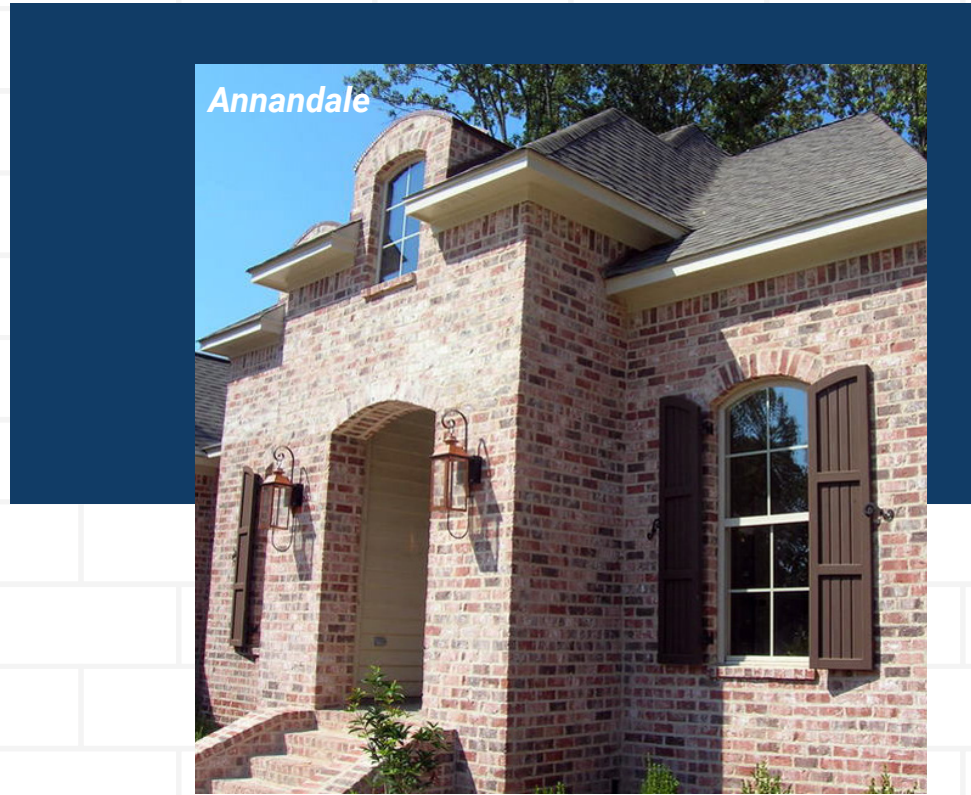

At North Georgia Brick, we deliver more than materials, we provide complete, turnkey masonry solutions. As one of the nation's largest providers of full-service masonry, our experienced crews support leading tract and production homebuilders throughout the Southeast.

Backed by decades of industry expertise, our turnkey division combines efficient project execution with consistent craftsmanship. Dedicated project managers oversee every phase of the work, coordinating material delivery, installation, and on-site operations to maintain quality, safety, and schedule integrity.

From shipment and professional installation to job-site cleanliness and final cleanup, our teams handle each project with precision, often completing work within just a few business days. The result is a reliable, streamlined masonry solution that delivers exceptional value without compromising quality.

North Georgia Brick is your trusted partner for brick, thin brick, pavers, and full-service masonry, executed seamlessly from start to finish.

# Watsontown Brick®

Founded in 1908, Watsontown Brick Company produces residential, commercial, and architectural brick from three dedicated plants, manufacturing approximately 95 million bricks annually. Its product line includes extruded red shale, buff, molded, and thin brick, along with custom shapes and blends, all meeting ASTM and PCI standards. Acquired by General Shale in 2018, Watsontown is part of a North American manufacturing and distribution network backed by Wienerberger AG, the world's largest brick producer.

# HB HENRY BRICK

*Old Chicago*

Founded in 1945 by J.D. Henry, the Henry Brick Company was established with a single vision: to transform the rich clay of central Alabama into brick of exceptional beauty and superior quality. For more than sixty-five years, the family-owned company has exemplified the art of brickmaking, with a distinctive product line celebrated across the Southern, Eastern, and Midwestern United States.

Since 1922, Pine Hall Brick has been committed to its employees, communities, customers, and the environment. Made from natural clay, water, and fire, brick is one of the most sustainable building materials, with many pieces still in use or recycled decades after production. Pine Hall Brick meets or exceeds all environmental regulations and strives to go beyond compliance, ensuring responsible stewardship of natural resources for future generations.

# THIN BRICK

Saddletown

Carriage House

General Shale offers a wide range of thin brick options, from rustic, old-world styles to sleek, contemporary linear designs. The collection includes authentic clay-body thin brick as well as modern calcium silicate options from Arriscraft, featured in the Elevation Thin Brick collection.

General Shale's Old Brick Originals™ thin brick is authentic, kiln-fired brick cut thin and is a practical solution for exterior or interior applications. Its lightweight nature makes it a cost-efficient option that is also user-friendly for any project.
